FUNCTION TABLE
(Each Latch)

INPUTS		OUTPUTS	
D	G	Q	$\bar{Q}$
L	H	L	H
H	H	H	L
X	L	Q_0	$\bar{Q}_0$

H = high level, X = irrelevant
Q_0 = the level of Q before the high-to-low transition of G

description

These latches are ideally suited for use as temporary storage for binary information between processing units and input/output or indicator units. Information present at a data (D) input is transferred to the Q output when the enable (G) is high and the Q output will follow the data input as long as the enable remains high. When the enable goes low, the information (that was setup at the data input at the time the transition occurred) is retained at the Q output until the enable is permitted to go high.

These circuits are completely compatible with all popular TTL or DTL families. All inputs are diode-clamped to minimize transmission-line effects and simplify system design. Typical power dissipation is 40 milliwatts per latch. The SN54100 is characterized for operation over the full military temperature range of −55° to 125°C; the SN74100 is characterized for operation from 0°C to 70°C.

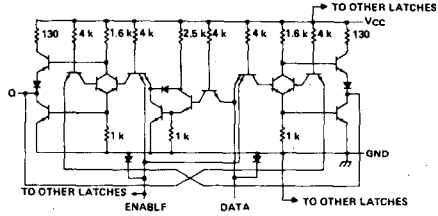
schematic (each latch)



Resistor values shown are nominal and in ohms.

absolute maximum ratings over operating free-air temperature range (unless otherwise noted)

Supply voltage, V_{CC} (see Note 1)	7 V
Input voltage	5.5 V
Intermitter voltage (see Note 2)	5.5 V
Operating free-air temperature range: SN54100	−55°C to 125°C
SN74100	0°C to 70°C
Storage temperature range	−65°C to 150°C

NOTES: 1. Voltage values, except interemitter voltage, are with respect to network ground terminal.
2. This is the voltage between two emitters of a multiple-emitter input transistor. For this circuit, this rating applies between the enable and D inputs of any latch.

† For conditions shown as MIN or MAX, use the appropriate value specified under recommended operating conditions.
‡ All typical values are at V_{CC} = 5 V, T_A = 25°C.
§ Not more than one output should be shorted at a time.
NOTE 3: I_{CC} is tested with all inputs grounded and all outputs open.
